02 — PLAN COMPARE

HDHP vs PPO Plain-Language Comparison

PLAN COMPARE

Compare the HDHP and PPO plans for an employee named [NAME] who is enrolling in [coverage tier: employee only / employee + spouse / family]. Show the full-year cost under each plan including: deductible, coinsurance, estimated out-of-pocket, premium difference, and HSA employer seed (HDHP: \$[SEED AMOUNT]). Show the math clearly. End with a plain-language recommendation and the one trade-off they're accepting.

HSA Contribution Strategy

OE COACH

An employee is enrolled in an HDHP for plan year [YEAR] with employer HSA seed of \$[SEED]. They are enrolled as [self-only / family] coverage. Walk them through: the IRS contribution limit for their coverage tier, how much they can personally contribute after accounting for the employer seed, the tax benefit of maxing out the HSA (federal, FICA, and state if applicable), whether they should treat the HSA as a spending account or long-term investment account given their situation: [describe their health profile and financial situation], and the top 3 ways to spend HSA dollars they might not know about.

Enrollment deadline: [X] days from hire date. Tone should be welcoming and jargon-free. Use analogies where helpful. End with a 'top 3 things to do in your first week' checklist. Format as a spoken script a benefits coordinator would read to a group of new hires, not a policy document.

COBRA Explanation for Departing Employee

CLAIMS COMPASS

An employee named [NAME] is [leaving voluntarily / being laid off / going on unpaid leave] effective [DATE]. Their current coverage is [PLAN NAME].
